PROFESSIONAL SUMMARY

Software Engineering graduate and Junior Java Developer with training in Backend and Full Stack development through academic and professional projects. Experienced in building applications using Java, Spring Boot, JavaScript, HTML, CSS, MySQL, and REST APIs while working with Scrum methodologies and Git/GitHub version control.

I have contributed to automation, web development, and software integration projects, strengthening my skills in Object-Oriented Programming (OOP), teamwork, and problem-solving. I am seeking to join a Software Engineering Academy where I can continue developing my Backend, Frontend, and Quality Assurance skills while delivering value from day one.

TECHNICAL SKILLS

Java | Spring Boot | HTML5 | CSS3 | JavaScript | MySQL | n8n | Git | GitHub | REST APIs | Swift | Scrum | Object-Oriented Programming (OOP) | Manual Testing

SOFT SKILLS

Teamwork | Effective Communication | Problem Solving | Adaptability | Continuous Learning | Organization | Attention to Detail | Time Management

ACADEMIC PROJECTS

“MuchaLucha” | Generation 2025 (May 2026)

- I developed the structure of an e-commerce platform for selling wrestling products using React, focusing on the purchase flow and product management.
- I implemented the frontend logic in React, integrating components and supporting communication with the backend through APIs.

“ArcaRuta” | Hack4Her 2025 (June 2025)

- Developed an AI-powered iOS application for smart inventory management using Swift, ARKit, and Google Gemini AI.
- Contributed to augmented reality features that enabled real-time product visualization with ARKit.

“Mi Negocio BBVA” | Hackathon Nacional Swift Changemakers Apple (May 2025)

- Developed an iOS application to support entrepreneurs and small businesses with administrative and financial processes.
- Collaborated on feature design and application architecture to deliver an intuitive and accessible user experience.

PROFESSIONAL EXPERIENCE

Full Stack Developer Freelance | E-commerce Mensajería Total S.A. de C.V. | Syntax Logistics (April 2026 – July 2026)

- Developed an e-commerce platform to digitize shipping requests, quotations, and shipment tracking using Java, Spring Boot, HTML, CSS, JavaScript, and MySQL.
- Served as the project coordinator, applying Scrum methodologies and using Git, GitHub, and Jira for project and version management.
- Led the final UI design and frontend development, structured the project's global variables, and integrated frontend features with the Java Spring Boot backend.

Automation Developer Freelancer | n8n Automation Project (Noviembre 2025 - Junio 2026)

- Development of automation solutions using n8n, applying programming logic, requirements analysis and functional testing to ensure the correct functioning of the flows.
- I collaborated with a team on workflow integration and process automation.

Laboratory Assistant & Student Designer | iOS Development Lab UANL (August 2024 – June 2025)

- Taught Swift Playgrounds and iPad summer courses to children aged 8–13, helping them understand programming fundamentals.
- Encouraged critical thinking, creativity, and hands-on learning through interactive activities.
- Managed laboratory equipment and technology inventory.

EDUCATIONAL TRAINING

- **Bootcamp Desarrollador Java Full Stack Jr. | Generation México (Abril 2026 - Julio 2026)**
- **[Backend Developer Core](#) | Universidad Tecmilenio, Béalos (Septiembre 2025 - Diciembre 2025)**
- **Ingeniería en Tecnología de Software | Facultad de Ingeniería Mecánica y Eléctrica, UANL (2020 - 2025)**
- **Técnico en Tecnologías de la Información con Enfoque en Diseño Gráfico | Escuela Industrial y Preparatoria Técnica Álvaro Obregón (2017 - 2020)**

CERTIFICATIONS

- **Introduction to Java, Java I – Accenture (2026)**
- **Project Management Fundamentals & Agile Methodologies – Santander Open Academy (2026)**
- **Foundations of User Experience (UX) Design – Google (2025)**
- **Foundations of Cybersecurity – Google (2025)**
- **Participant, Apple's Everyone Can Code Program (June 2024 – June 2025)**
